To : The President
Stock Exchange of Thailand

Shin Satellite Public Company Limited (the "Company") notified the Stock Exchange of Thailand ("SET") in its letter reference no.047/2003 dated February 10, 2003 of the action taken by the Company to rectify the anomaly on its Thaicom-3 satellite. In this letter, the Company would like to notify the SET of the progress in its effort to restore the services to United Broadcasting Corporation Plc. ("UBC") as follows :

1. The transponder services to UBC's 31 channels have now been restored to normal.
2. The signals of television channels 3, 5, 7, 9, 11 and ITV have been transferred to Ku-band transponders on Thaicom-2 satellite.

The actions taken by the Company enabled most of UBC's subscribers to receive the signals of UBC and free television from February 8, 2003. There are, however, certain number of subscribers who are able to receive UBC signals from Thaicom-3 satellite but unable to receive free television signals from Thaicom-2 satellite. For these customers, the cable television services have not yet been fully restored.

The Company and UBC are working together to correct the said problem urgently.
